to the President for National Security Affairs

SUBJECT: Guidelines for the Planning  
of Cuban Overflights

REFERENCE: National Security Action Memorandum  
No. 208, 6 December 1962

1. On 6 December I forwarded to you a memorandum "Photographic Reconnaissance of Cuba" (TS-185148) setting forth in an attachment the intelligence requirements for overhead photographic reconnaissance of Cuba as approved by the United States Intelligence Board on 5 December 1962.

2. The purpose of this memorandum is to inform you that the reference is being disseminated to the United States Intelligence Board and its Committee on Overhead Reconnaissance for guidance. It is my understanding that you agree that my memorandum of 6 December completes the action to the National Security Action Memorandum No. 208.

3. For your information, I informed the Board on 12 December of your injunction to supplement the Cuban flights by energetic collection of information by all other available means. I urged that they examine immediately the status of other collection for review at the Board next week.
